Petition for Correction of Inventorship under 37 CFR 1.48(a)

Sir:

In view of the papers filed October 12, 2001 under serial No. 09/977,065, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a).

The inventorship of this application has been changed by the addition of

Hiroaki Yamada, 2263 McLaughlin Avenue, #2, San Jose, California, 95122-3548, U.S.A.

Upon review of this application, it has been determined that Hiroaki Yamada has made a significant contribution to this application and that his name was inadvertently omitted from the originally filed unsigned declaration and the originally filed application data sheet.

Attached please find a statement from Hiroaki Yamada stating that this error occurred without deceptive intent and that the invention as claimed included participation from Hiroaki Yamada.

*Missing 17 pages
P.C. not completely
printed.*

A Revised Declaration reflecting this change to the inventorship has been signed by all of the inventors, and is duly attached hereto.

An assignment from the inventors, including Hiroaki Yamada, to Scion Photonics, Inc. was recorded on February 11, 2002 under reel/frame 012600/0027.

Please charge the required fee of \$130.00 Deposit Account No: 50-1465.

Please charge any additional fees or credit overpayment to Deposit Account No: 50-1465.

Respectfully submitted,

CHARLES E. WANDS
